

Create the perfect wireless entertainment experience!

Cardio Theater® wireless systems offer fitness facility users a state of the art entertainment experience. Our latest wireless system combines functionality, performance and style to bring high-fidelity sound to each individual. The 863 MHz system features individually selectable frequencies, resulting in static-free performance regardless of location or environment – particularly important for large facilities. Both the 863 MHz single channel and multi-channel transmitters are easy to setup and use, and both will give your facility an edge on your competition.
