PEP

PERSONAL
ENTERTAINMENT
PLAYER

TAP INTO TUNES AND VIDEO WITH THE NEWLY ENHANCED PERSONAL ENTERTAINMENT PLAYER (PEP).

Precor leads the way in providing innovative, durable entertainment products specific to the fitness industry. The PEP allows users to upload video content from an iPod® to Personal Viewing Screens on fitness equipment.

Horizontal tray for all iPod models

The PEP has a robust, 30-pin friction lock connector to accommodate all iPod models and charge your device while you workout. The tray is lined to minimize vibration.

Integrated “Made for iPod” technology

The PEP allows users to upload video content from their iPod to Personal Viewing Screens. That means in addition to choosing music, users can select their own videos to inspire their workout. “Made for iPod” means that an electronic accessory has been designed to connect specifically to iPod and has been certified by the developer to meet Apple performance standards.

Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

Nike+ workout interface

Collect workout information with the new PEP and store it in your iPod nano for later upload to the Nike+ website. This feature works with advanced displays only.

Ergonomic design

Precor’s cardio and entertainment equipment were designed together to provide ergonomic positioning for a comfortable workout and a simple, intuitive interface for a superior user experience.

ChannelCast® programming

Our entertainment offering integrates with the ChannelCast network—a proprietary broadcast technology with one of the world’s largest music video libraries and award-winning health club promotions.
